

April 2, 1987

Dear Researcher,

The San Luis Valley Research Center Committee met on March 31, 1987 to discuss the research proposals submitted for 1987. Enclosed is a list of the proposals submitted with the recommendation from the committee for funding. There was a lengthy review of options in regards to how much to spend on research for 1987. It was the committee's decision to cut out whole projects rather than remove 20% from each where necessary to bring the budget within the \$33,000 level. Priorities were assigned to each proposal and those with the highest priority for 1987 were recommended for funding. As a committee, we appreciated all of the research proposals submitted and encourage individuals with projects that were not funded in 1987 to resubmit a proposal in 1988. Thank you for your cooperation.

Sincerely,
